**TOWN OF WAYNE  
FINANCIAL MANAGEMENT & INVESTMENT POLICY**

**SECTION 4. FIXED ASSET POLICY**

**I. Policy**

This policy establishes the minimum cost value (capitalization amount) that shall be used to determine the capital assets, including infrastructure assets that are to be recorded in the Town of Wayne, Maine's annual financial statements in order to comply with the requirements of GASB Statement Number 34. This policy also addresses other considerations for recording and depreciating fixed assets in order to comply with the provisions of GASB Statement number 34.

**II. Capital Asset Definition**

Capital Asset will be defined as tangible and intangible assets that have initial useful lives that extend beyond a single reporting period.

**III. Capitalization Method**

All Capital Assets will be recorded at historical costs as of the date acquired or constructed. If historical cost information is not available, assets will be recorded at estimated historical cost by calculating current replacement cost and deflating the cost using the appropriate price-level index.

**IV. Capitalization Thresholds**

Fixed Asset Limits:

- A. Land. All land and permanent rights to land (i.e., easements) shall be recorded without regard to significant value.
- B. Buildings. All buildings shall be recorded at acquisition cost without regard to significant value. Additions to buildings less than \$5,000 per building shall not be recorded.
- C. Equipment. Equipment costing \$5,000 and more shall be recorded as Fixed Assets. Additions to equipment costing \$5,000 or more shall be recorded as Fixed Assets.
- D. Additional Fixed Assets. Additional fixed assets shall be recorded and maintained when required by other terms or agreements, if different from what is stated above.
- E. Items not Classified as Fixed Assets. As described above may be included in an inventory listing for internal control purposes.

**TOWN OF WAYNE**  
**FINANCIAL MANAGEMENT & INVESTMENT POLICY**

**V. Infrastructure Assets**

In accordance with GASB Statement number 34, the Town will record, at a minimum, “major” infrastructure assets as defined in Statement 34 that were acquired, constructed or significantly reconstructed, or that received significant improvements after June 30, 1980. Other infrastructure assets may be capitalized as deemed appropriate. The Town does not intend to use the “modified approach” to record infrastructure.

**VI. Other Assets**

Detailed records shall be maintained for all items below the capitalization thresholds that should be safeguarded from loss. These items will be part of the annual physical inventory discussed below. These items include computer equipment that falls below the established thresholds and any other asset specified by the Town Manager.

**VII. Depreciation and Useful Life**

Each appropriate Department Head will assign an estimated useful life to all assets for the purpose of recording depreciation. The attached “Suggested Useful Lives” schedule will be used to establish lives for most assets. Asset lives will be adjusted as necessary depending on the present condition and use of the asset and based on how long the asset is expected to meet current service demands. Adjustments should be properly documented. Depreciation will be recorded based on the straight-line method using the half-year convention and depreciation down to the assets salvage value.

**VIII. Safeguarding and Controlling Fixed Assets**

All machinery and equipment, vehicles and furniture will be assigned an asset number and identified with a fixed asset tag. As fixed assets are purchased or disposed of, the department head in custody of that asset will be responsible for preparing a fixed asset data sheet, which will then be forwarded to the Town Manager to ensure proper recording. A physical inventory will be taken annually on or about June 30 and compared to the physical inventory records. The results will be forwarded to the Town Manager where appropriate adjustments will be made to the fixed asset records.

**TOWN OF WAYNE**  
**FINANCIAL MANAGEMENT & INVESTMENT POLICY**

**SECTION 5. FUND BALANCE**

**I. Purpose**

Sufficient fund balance is required to maintain liquidity, assure positive cash flow, prevent borrowing through tax anticipation notes, and provide effective cash management. Fund balance is not completely represented by liquid assets, such as cash, but includes unrealized receivables and other assets as components which require a certain period of time to convert to cash. Because of these factors, the Town of Wayne adopts this policy to maintain a healthy fund balance that will provide adequate funds to carry the Town through times of relatively low cash flow periods and provide funds for emergency situations.

**II. Determination of Recommended Fund Balance**

Two general rules are commonly promulgated which define an appropriate municipal fund balance. The first is that undesignated fund balance should be, at a minimum, ten percent of the commitment plus one month's expenditures. Based upon a tax commitment figure of \$2,600,000, the Town would require fund balance of **\$509,000 at a minimum**. ( $10\%$  of \$2,600,000 = \$260,000, plus  $8.3\%$  of \$3,000,000 = \$249,000.  $\$260,000 + \$249,000 = \$509,000$ ). Another rule of thumb commonly used in practice requires fund balance to approximate three month's expenditures. This amount could be calculated using one-fourth of the total appropriations as an estimate, which, with an annual total appropriation of \$3,000,000, would be **\$750,000 at a minimum**.

These figures reflect minimum requirements only. Additional factors must be evaluated by management of each individual town in light of current economic conditions and specific facts relative to its own financial environment. Large expected cash outlays in the near future, capital planning and budgeting as well as economic stability of the Town's largest taxpayers must be considered in the formula.

**III. Policy**

The Town of Wayne hereby establishes a policy that recommends the Town to maintain a minimum undesignated fund balance approximately equal to three month's expenditures (25% of total appropriations.) *[For example, if total appropriations are \$3,000,000 in fiscal year 2013-2014, 25% (3 months) would equal \$750,000. Therefore, a minimum of \$750,000 should be in the undesignated fund balance at the end of the year.]*

**TOWN OF WAYNE  
FINANCIAL MANAGEMENT & INVESTMENT POLICY**

The policy further establishes that, in no case, shall the undesignated fund balance be allowed to fall to less than 10% of the tax commitment plus one-month's expenditures.

This "minimum range fund balance policy" provides a minimum *range* for the undesignated fund balance in FY14 from \$509,000 to \$750,000 based on the proposed FY14 budget.

**IV. Procedures & Oversight**

The Treasurer's biweekly Cash Flow Analyses, bank statements, and financial reports will be used by the Treasurer, the Town Manager, and the Board of Selectmen to monitor the undesignated fund balance each month, noting that the fund balance will ebb and flow according to cash flow (tax payments, other revenue collection, and expenditures.) An approximate idea of the fund balance will be known through the use of the aforementioned tools, but the actual year-end fund balance will finally be known upon the completion of the year-end audit. Financial planners must keep this policy in mind when determining the budget and its funding sources for each upcoming year.

**TOWN OF WAYNE  
FINANCIAL MANAGEMENT & INVESTMENT POLICY**

- C. Oversight. The Town Manager shall review the Town Clerk's procedures and back-up log to ensure adherence to the policy.

- B. Procedure. Each employee shall have her/his own restricted work area on the computer system, entitled with her/his name, which may be accessed only by that particular employee's password. All employee passwords shall be issued and installed by those contracted computer technicians. In addition, only Town of Wayne contracted computer technicians shall be allowed to install and maintain Town of Wayne hardware and software.
- C. Document Sharing. The Town of Wayne computer system provides a shared work area called, "MyFiles" at which any employee may create, share, and work on documents that are available to anyone with access to the Town of Wayne computer system.
- D.. Oversight. TMAC, Inc., computer technicians, or other computer technicians contracted by the Town of Wayne, shall oversee the implementation of this policy, with the advice and consent of the Town Manager.

**TOWN OF WAYNE**  
**FINANCIAL MANAGEMENT & INVESTMENT POLICY**
